Section 2: Vocabulary**Choose the correct word or phrase to complete each statement.**

6. Mandy always wears the newest fashions. Her clothes are (**loud / trendy / classic**).
7. Danielle designed something appropriate to wear for a charity ball at a luxury hotel. Her (**funky / trendy / elegant**) gown was simple but very beautiful.
8. As people started working from home, sales of formal clothing decreased. People were spending money on (**classic / casual / funky**), comfortable clothes instead.
9. Aisha prefers to wear (**loud / subdued / classic**) colors like tan and gray– they match her quiet personality.
10. Daisy thought the black cocktail dress was too tight. She chose one in pink that was a little less (**clingy / low-cut / strapless**).
11. Miguel wore (**a tux / a tank top / shorts**) at his wedding ceremony. I've never seen him dressed so formally. He looked like a movie star at a film premier!
12. Do you sell any blouses in (**a colorful print / solid blue / polka-dot**)? I'd love something with a flower design.
13. The front of this evening gown might be a little too revealing for my taste. Do you have anything that isn't (**low-cut / striped / solid**).

Section 3: Grammar**Choose all the quantifiers that correctly complete each statement.**

14. _____ people would agree that wearing shorts to the office is inappropriate. A few would argue otherwise.
 - a. Plenty of
 - b. All
 - c. Not as much
 - d. Most
15. There has been _____ interest in the idea of changing the office dress code.
 - a. plenty of
 - b. more and more
 - c. a majority of
 - d. many
16. _____ of these books were recommended because they explain complex ideas in a way that is easy to understand.
 - a. Several
 - b. Any
 - c. Less
 - d. A number

NAME: _____

DATE: _____

17. _____ doctors say fad diets are dangerous. It would be difficult to find a doctor who is willing to recommend one.
- a. Few
 - b. Most
 - c. All
 - d. Plenty of
18. We use the Internet differently than we did in the past. _____ internet habits have changed significantly in the last 20 years.
- a. No
 - b. Many
 - c. Not as much
 - d. A lot of
19. Students at the school must wear uniforms, so they don't have _____ choice about what to wear.
- a. a lot of
 - b. a number of
 - c. much
 - d. many
20. _____ student needs to pass the final exam in order to get credit for the course.
- a. Each
 - b. Many
 - c. A great deal of
 - d. Every
21. News of the new shopping mall is generating only _____ interest, because most people prefer to shop online.
- a. a little
 - b. a lot
 - c. a bit of
 - d. much

Section 4: Speaking Part A

Choose the correct language from the box to complete the conversation. There is one extra choice.

Could I ask you for some advice	I think that might be a little overdressed
I think that might be a little underdressed	I'm a little unsure about the dress code.
I'm glad I asked	What would you like to know

A: Hi, Dan. **22.** _____ about the holiday party next week?

B: Sure. **23.** _____?

A: **24.** _____. I mean, how casual will it be?

B: I heard it's on the formal side.

A: I've been thinking of wearing a suit. How would that be?

B: **25.** _____. Most men will probably be in something just a bit more casual, like a dress shirt and blazer.

A: Thanks. That's good to know. **26.** _____.

Section 4: Speaking Part B

Choose the correct language to complete each conversation.

27. A: The reception will be (on the informal side / on the formal side / underdressed).

B: So I definitely shouldn't wear a gown, right?

A: Right. You would look overdressed in a gown.

28. A: Did Kara answer your questions about the dress code?

B: Yes, thanks! (It was unnecessary. / It was unhelpful. / Thank goodness I asked.)

29. A: Can I ask for some advice about the dance?

B: Of course. (How casual will it be? / What do you need to know? / How would that be?)

A: Well, is it supposed to be on the formal side?

Section 5: Reading Part A

Read the article. Then read each statement. Choose all the information from the article that supports each idea.

Lifecycle of a T-Shirt

We buy nearly two billion T-shirts annually, making the basic cotton T-shirt the most popular clothing item in the world. You've probably got several in your closet right now! Have you ever thought about how they're made or the impact they have on the environment?

A T-shirt starts as a cotton plant on a farm, probably in the US, China, or India. Cotton plants have flowers that look like puffs. Machines collect these puffs, called bolls, and separate the cotton fibers from the plant's seeds. The bolls are then gathered into large bales and transported to factories where machines spin the cotton into bundles of yarn called slivers. These slivers are sent to knitting machines that create sheets of rough, gray fabric. Next, the fabric is treated with chemicals and heat to soften it. From there, the fabric is either bleached white or dipped in dyes to make brightly colored fabric. Up to this point, the process of making fabric is largely done by machine, but from here, it goes to workers in factories who stitch the fabric into T-shirts. Bangladesh, the world's largest exporter of T-shirts, employs 4.5 million people to make these shirts. Finally, the finished shirts are shipped all over the world.

What's the environmental impact of making just one T-shirt? Bigger than you think! It starts with the cotton plants themselves, which are nicknamed "the world's dirtiest crop." Growing the cotton in a single T-shirt requires 2,700 liters of water. Add to that 4.5 grams of pesticides and 100 grams fertilizers that pollute the environment. Some of the fabric dyes used to create vibrant colors can contain cancer-causing chemicals like cadmium, lead, and mercury. Factories release these chemicals as wastewater, which can contaminate water sources. Finally, the entire production process from farm to store requires 544 grams of fossil fuels. Clothing production alone accounts for 10% of global carbon emissions.

So, what can be done about this? We all need to wear clothing, but there are a few simple things we can do to minimize our ecological footprint and make a positive impact. Look for clothing made of organic cotton, which is grown in a way that doesn't require the use of pesticides or toxic chemicals. Some clothing is even made of recycled materials, such as old clothing or, believe it or not, from water bottles and old fishing nets. Finally, instead of buying new, consider shopping at stores that sell secondhand clothing.

NAME: _____

DATE: _____

30. Making just one T-shirt has a large environmental impact.
- a. Clothing can be made from recycled materials such as old fishing nets.
 - b. The cotton in a single T-shirt requires 2,700 liters of water to grow.
 - c. Fabric dyes used to create vibrant colors can contain toxic chemicals.
 - d. The clothing industry is responsible for 10% of the world's carbon emissions.
31. There are simple things consumers can do to minimize their ecological footprint.
- a. Buy clothing colored with dyes that don't require the use of toxic chemicals.
 - b. Never buy clothing made with loud, colorful fabric dyes.
 - c. Buy T-shirts made from recycled materials such as old clothing.
 - d. Shop at stores that sell used clothing instead of buying new.

Section 5: Reading Part B

Read the article in Part A again. Notice the underlined words. Then choose the correct words or phrases to complete the definitions.

32. A bale is _____.
- a. a large amount of material pressed together and tied up
 - b. soft, white cotton flowers that look like puffs
 - c. a bundle of yarn made from spun cotton
33. If something is secondhand, it _____.
- a. is new and never worn before
 - b. is made from organic cotton
 - c. was owned by someone else
