Section 5: Reading Part A

Read the article. Then choose the correct answer to each question, according to the information.

Two Famous Hamiltons

Laird Hamilton and Bethany Hamilton aren't related, but both are famous surfers from Hawaii who've overcome incredible challenges and are heroic in different ways.

Laird started surfing in Hawaii at the age of three. At age seven, he displayed the fearlessness that later became his calling card by jumping off an 18-meter cliff into the ocean. After dropping out of high school, his future was uncertain. Laird surfed constantly but refused to compete, seeing surfing as a work of art rather than a performance to be scored by judges.

Despite never entering competitions, Laird quickly became one of the best-known surfers in the world. Instead of accumulating trophies, he became famous for catching huge waves and aggressively pushing the envelope of what is possible on a surfboard. In the 1990s, Laird helped invent a technique using boats to reach bigger waves farther out in the ocean. While some surfers felt this was cheating, it made it possible to catch waves as high as 25 meters. In 2000, Laird was towed out to a massive wave off the coast of Teahupoo, Tahiti. Named the Millennium Wave, it broke over a shallow, razor-sharp reef and was considered the most dangerous in the world. When Laird successfully rode it, he pushed the sport to greater heights than ever before.

Another precocious Hawaiian, Bethany Hamilton began surfing at age seven. A year later she won her first tournament and by age ten had earned her first sponsorship. She was well on her way to success when, in 2003, she was attacked by a 4-meter tiger shark and lost her left arm. Many expected the 13-year-old to quit the sport, but the first thing Bethany wanted to know after surgery was "When can I surf again?" Bethany was so determined that she overcame her fears and was back in the water just 26 days after the attack. Two years later, after modifying her surfboard and relearning to surf with one arm, she won her first national surfing title. In 2007, she realized her dream of surfing professionally and has won dozens of competitions since. In 2017, she was inducted into the Surfer's Hall of Fame.

Both Hamiltons have inspired numerous films documenting their achievements. They've been celebrated as heroes not only because of their success at surfing, but for inspiring others to discover their passions and do extraordinary things. Both are very active philanthropists: Bethany's foundation supports child amputees who have suffered traumatic limb loss, and Laird spends much of his time working for charitable and environmental causes.

NAME: _____

DATE: _____

30. What can be inferred about some surfer's disapproval of tow-in surfing?
- a. They feel that giant waves are too dangerous to surf safely.
 - b. They feel that motorized boats are bad for the ocean environment.
 - c. They feel that surfers should not need help from a boat to catch waves.
31. What can be inferred about why people thought Bethany would quit surfing?
- a. They believed that she wasn't serious about becoming a pro surfer.
 - b. They believed her injury would prevent her from surfing again.
 - c. They believed that she wasn't talented enough to become a pro surfer.

Section 5: Reading Part B

Read the article again. Notice the underlined words. Then choose the correct phrase to complete each definition.
