

A very unusual house

Is there a real-size LEGO® house near you? There's one in Billund, Denmark, the home of LEGO. It's 23 metres high and has got 25 million LEGO bricks!

In the house, there's a real-size living room with furniture – two armchairs in front of a TV, and a table with a cupboard behind it. **(a)** The builders make everything with bricks – the furniture, the reading lamps, the clocks next to the beds, and even the cat on the bed!

Visitors build things in the house, too. **(b)** There aren't any rules, people make anything they like.

There are four different areas and 25 million bricks for visitors to use. In one area, people build houses and anything else they think a town needs. **(c)** There isn't any real water but a computer makes it look like there is!

So, are there other things to do? Yes, there are! There are nine areas on the top of the house and each one offers a unique experience for visitors. **(d)** It's like a museum and you learn about the history of the company there.

There are bathrooms and restaurants for visitors. At Mini Chef restaurant, you build your food with bricks. Then you put the bricks in a machine – it's like a computer – and a message goes to the kitchen. **(e)** When the food is ready, it's in a big LEGO box and robots give it to you.
