

Shots of Earth

The astronaut Rusty Schweickart made a spacewalk **in order to** test an emergency procedure, **in case** the Apollo capsule and lunar module failed to connect.

However, as the test began, there was a delay **due to** a technical problem, and **as a consequence**, Rusty had five minutes in space on his own **whilst** it was being fixed.

Although the astronauts hadn't been briefed to take photographs, **when** Rusty saw the Earth hanging in space, he was **so** awestruck **that** he immediately captured it on camera. **Not only** did these images affect the astronauts deeply, they **also** had a profound effect on the rest of mankind.
