

Life in the future

Student 1

Optimistic

Serious problems

- always found ways to deal with problems – can do same in future
- life could become better – healthcare and technology

Life expectancy

- already big improvements
- 50–80 US
- hundred in future
- grow new body parts
- fit and healthy

World population

- worry if people live longer
- educated and richer, don't need or want so many children
- use technology, educate better
- robots create wealth, share more equally

World government

- people demanding independence
- need other direction
- world government – problems and resources, managed at global level

Student 2

Serious problems

- always found ways to deal with problems – can do same in future
- life could become better – healthcare and technology

Life expectancy

- already big improvements
- 50–80 USA
- 100 in future
- grow new body parts
- fit and healthy
