

## **Extra Reading Comprehension Questions**

### **For the Teacher**

The additional reading activities are intended to supplement the activities that follow each Reading in the Student's Book. They consist of two sets of activities: (1) basic comprehension questions, and (2) critical-thinking questions.

You may choose to use these extra reading activities in several ways: right after reading the article, right after doing the Reading activities in the Student's Book, or as an alternative to the Reading activities in the Student's Book. These activities are also available on the *ActiveBook Self-Study Disc*.
