## Video User Guide

---

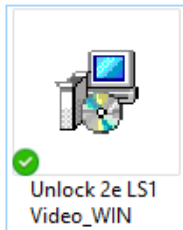

Thank you for using a *Cambridge University Press* product. Please use this user guide to get the most out of your purchase.

Installing the videos.....	1
Windows .....	1
Mac OS.....	2
Accessing the videos .....	3
Playing the videos.....	4

## Installing the videos

### Windows

1) Double-click on the installer to begin installation. For Windows, this is a **WIN** file.

2) A help wizard will now guide you through the installation process.

Read the instructions and click **Next** then **Install**.

3) Once the installation is complete you will see a success screen. Click **Finish** to exit and launch the video player.

4) You can now open your videos at any time by double-clicking the 'Plus' shortcut icon on your desktop.

## Mac OS

1) Double-click on the installer to begin installation. For Mac OS, this is a **.dmg** file.

## Accessing the videos

Once you have installed the videos on your system, double-click the *Plus* icon to launch the program.

Depending on your device and operating system this icon may appear on your desktop, under **Programs** in the **Start** menu, in an **Applications** folder or similar.

## Playing the videos

Click on the unit number for the video you want to view, and the video player will pop up.

To enable subtitles, click on the  icon in the video player.

To view the video in full screen mode, click the  icon in the video player.
